

The image shows two rectangular metal modules, likely calorimeters, used in particle physics experiments. The module on the left is labeled 'EIC Barrel EMcal' and the one on the right is labeled 'STAR Forward Upgrade EMcal'. Both modules have a grid of small, square, metallic cells. They are placed on a surface next to a yellow ruler for scale. The ruler shows measurements in inches and centimeters. A small blue label with white text is visible below the ruler, mentioning 'STAR', 'GRANITE CORP.', and 'ISO 9001 CERTIFIED'.
